DETAILED ACTION

This action is responsive to applicants' amendment and response received January 9, 2007. Claims 1, 2, 4, 5, 7-13, and 18-58 are currently pending.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. The rejection of claims 1, 2, 5-37, and 40-58 under 35 U.S.C. 102(e) as being anticipated by Hunter et al, US 6,939,842 is withdrawn in view of applicants' amendment and response.

The rejection of claims 1, 2, 4-12, 30-32, and 34-48 under 35 U.S.C. 102(e) as being anticipated by Barnabas et al, US 7,012,053 is withdrawn in view of applicants' amendment and response.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2, 4, 5, 7-13, and 18-58 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hunter et al, US 6,939,842.

Hunter et al teach a laundry treatment composition comprising a silicone and a substituted polysaccharide (see abstract). An example of such a composition is an emulsion comprising nonionic surfactant, polydimethylsiloxane, and silicone substituted polysaccharide (col. 27, example 1). Another example is an emulsion comprising nonionic surfactant, anionic surfactant, phosphate and carbonate builders, aminosilicone, and silicone substituted polysaccharide (col. 28, example 2). Note that the silicones of the invention comprise polydialkyl siloxanes, amino siloxanes, and mixtures thereof, and may be present in preferred amounts between 0.1 to 5% (col. 4, lines 2-8 and col. 34, claim 10). The aminosiloxanes will have a viscosity between 100 to 200 cst and the alkylsiloxanes will have a viscosity greater than 10,000 cst (col. 4, lines 24-63). The reference does not teach the specific combination of silicone and viscosity modifying agent in the presently claimed proportions, however, as mixtures of aminosilicones and polydimethyl siloxane are contemplated by the reference, the

examiner maintains it would have been obvious to one of ordinary skill in the art to formulate such a mixture and so render obvious the claims at hand.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
